Paducah Family Fast, Should Replenish WT

By PAUL SIMS

A pair of fine sprinters from a speedy Paducah family may help West Texas State to a darkhorse championship in the Missouri Valley Conference Track Meet Monday and Tuesday in Wichita, Kan.

Alvis Wright and brother Karl will be entered in the sprints and have good shots at winning at least a title.

The Wrights come from a talented family in Paducah.

How's this for speed — sophomore Teresa Wright was second in the state meet recently in the 100 and paced Paducah's 880 - relay team to first and the sprint - relay team to second. Sophomore Eddie Wright is one of the top sprinters in the district.

There's more speed in the Wright family. A pair of grade - school - age brothers are reminding Paducah townspeople of Karl and Alvis.

West Texas State may have a fresh supply of "fast" coming from Paducah for the next several years.

Former Harvester pitcher Jeff Hogan threw well for the University of Texas at El Paso.

He recently stymied New Mexico's talented Lobos on seven hits in gaining a 2 - 1 triumph.

Miner coach Andy Cohen was quoted in the El Paso Herald - Post as saying, "Jeff pitched an outstanding game. But in the ninth he was trailing 1 - 0 and we weren't doing anything against

New Mexico's pitcher (southpaw Jim Weber). Jeff got into a jam and could have easily folded up his tent.

"But he really beared down, as if to say 'you may beat me but you're gonna do it with one run'."

It was a nice write - up for an ex - Pampa athlete to receive.

Why does Lefors, 12 miles from Pampa, give The Pampa News sports department everything it needs for good coverage while White Deer, 13 miles from Pampa, remains quiet?

Several White Deer sports fans are miffed because of the lack of much sports coverage in the newspaper. The fans do not realize exactly what it takes to get a story placed in the sports
