

On the hill

By Turý Delgado

The Miners, who were first clubbed by Arizona 41-0 back in 1916, continued their mining ways Saturday against the Wildcats. They haven't beaten the Tucson school since 1970 and have managed to win only 11 times in 58 years. The two schools have met 43 times and they go at it again next year.

With the long drought over with the win over Utah, a short drought is beginning to set in or there are signs of a cold winter. This week the Miners cruise up 1-10 in a head-on contest with a fiery and explosive Aggie machine. The last five meetings between the two Rio Grande tenants have been decided by a touchdown or less.

Tickets are now on sale at the south end of the Sun Bowl. Student tickets in an

unreserved section of the NMSU stadium are available for \$1.50 with SA card. Spouse cards also will be honored.

Signs of the times: three bottles of Alka-Seltzers and an emptied glass with a milk ring on Don Haskin's desk. Only days remain til the Miners BB team hoops it up and the "Bear" has been up to his old mothering tricks. Drills open Tuesday, Oct. 15.

It was a heck of a recruiting year for the Miner track program and Ted Banks as the track team preps for their Indoor opener Jan. 18 in Los Angeles. With the addition of Hans Alsmstrom the Miners should be 1-2 in the country this year in the shot put.

High jumpers Greg Joy, a 7'1" jumper from Canada and

three time high school champion from Nevada Leon Smith join the ranks. In the hammer throw, it will be Emmitt Berry who was the best high school hammer thrower in the nation last year and who is fresh from participating with the US Junior Team against Russia.

In the distance runs, Kenyan Gibson Gatei is being counted on heavily and arrives with tremendous credentials. Newcomer Joseph Gichongi is a 51 second flat in the intermediate hurdles and Colin Thurton flies the 100 yd dash in 9.3 seconds.

Andy Cohen, baseball coach, is busy fighting professional scouts for recruits these days. He treks to Washington, D.C. for a baseball conference in January to firm up the Miner schedule.
