PLANTING CEREMONY — A tree planting ceremony was held Tuesday when 50 mulberry trees, donated by the Beautify El Paso Association, were planted at a proposed park site near International Boundary Monument No. 1. The historic site is to be made an attractive place for visitors by landscaping it with trees, flagstones and benches. The monument is located across the Rio Grande from Smeltertown where it marks the point where the Rio Grande begins to form the boundary between the United States and Mexico for 1,200 miles to its mouth at the Gulf of Mexico. Present at the ceremonies were, from left, Andy Cohen and Mrs. Mabel Welch, representing the El Paso Beautify El Paso Association, Miss Louise Garrett, from the Dona Ana County Historical Society and Leon Metz, president of the El Paso Historical Society.
