Wall Catches Fire At Dudley Field

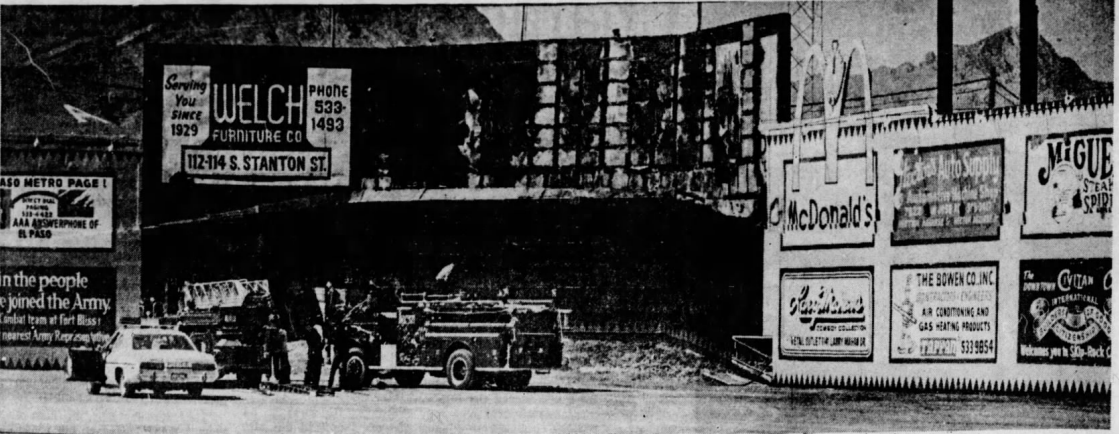

Fire could not have struck Dudley Field's centerfield fence at a better time Sunday afternoon.

An estimated \$500 damage occurred when a blaze began behind the fence along the Franklin Canal. Two fire trucks and a police unit were called to extinguish the fire.

"Work crews were coming out Monday to start painting the chairs and the fence signs so it'll just be a little extra work they'll have to do," said Jim Paul, general manager of the El Paso Diablos who begin their season April 14.

"We won't have any problems getting the park fixed and ready for the opener," Paul said. "I just hope the fire trucks didn't mess up the grass. It's in the best shape it's ever been in."

"I'm just glad the fire department was able to get to the blaze and put it out."
