New Uprising Rumored In Cuban Mountains

Havana (INS)—Reports of a large-scale battle between Cuban rebels and government troops, with heavy casualties on both sides, persisted in Havana diplomatic circles last night despite government denial.

Havana also was flooded with rumors—all officially denied—of "imminent" new attacks on the Batista government, from land or sea or both.

According to reports reaching foreign diplomats in the capital, a rebel band attacked the army base at El Maicho in Oriente province Saturday and 67 soldiers and 22 rebels were killed in fighting that continued through Sunday.

Scene of the reported battle is 600 miles east of Havana in the Sierra Madre Mountains, a hideaway stronghold of rebel leader Fidel Castro.

Reports of the week-end battle followed last Wednesday's surprise assault on the Presidential Palace at Havana, in which some 40 student rebels and troops and a United States tourist were killed, but President Fulgencio Batista escaped unharmed.

According to reports, the rebels seized a large quantity of rifles, machineguns and grenades in the surprise attack which allegedly included landings of anti-government forces from the sea.

Cuban Army Chief Maj. Gen. Francisco Tabernaia denied fully there was any truth to the battle reports. Batista, who also has insisted the country is calm and under control, said Sunday Castro was no threat to his government and had been reduced to a following of only a handful of men "three or four." It is the way Batista put it.

Havana newspapers carried no word of any battle, but foreign diplomats in the capital said they were "not convinced" the reports were untrue.

THE ATTACK ON THE EL MAICHO has reportedly been led by Jose Miguel Aleman, son of the former minister of education in the regime of President Grau.

The capital city itself is outwardly calm but as darkness falls each evening, the streets readily become almost deserted. Few American tourists are seen abroad after dark.

The casinos, which thrived with American and other tourists until last week's uprising at the Presidential Palace, are in the doldrums with little business.

Tension of Havana is reflected in one respect by the heavy guard being provided by the Batista government to U.S. Ambassador Arthur Gardner. The guard was given Gardner after disclosure the government had received reports of a possible plot to "kidnap" the American diplomat.

GARDNER HIMSELF makes light of the alleged kidnapping threat. He said, "Kidnaping me would be stupid."

The ambassador did not know who it was the government feared would kidnap him, but he pointed out that any act of violence against him would be "the fastest way to lose United States sympathy"—regardless of who the perpetrators might be.

SAFE FROM JONAH'S FATE
Divers Will Ride Whales Bareback, All For Science

Long Beach, Cal. (AP)—Two men with an urge to ride whales bareback left yesterday for a Baja California lagoon. With them went two other men who hope to photograph the whales mating and having babies.

The scene of this intrusion on marine privacy will be Scammon's Lagoon, about 400 miles south of San Diego.

THE INTRUDERS will be James H. Owen, owner of a sports shop here; Phil Jackson, former student at Scripps Institution of Oceanography at La Jolla, and skin divers John Gifford and Doug Stanley, the pair who hope to ride the whales bareback.

Scammon's Lagoon is a honeymoon retreat and marriage haven for many.

Swiss-Egyptian Relations Threatened By Spy Probe

Berne, Switzerland (INS)—Western diplomats feared last night that Swiss-Egyptian diplomatic relations might be severed over a case of a senior Swiss official suspected of feeding Egyptian embassy information to French agents.

The official in question is a security officer attached to Swiss Federal police headquarters at Berne. He is suspected of having tapped the Egyptian embassy phone line consistently during the past nine months.

A break in Swiss-Egyptian relations could be a very grave matter for Britain and France since Switzerland is handling their interests in Egypt since the Anglo-French invasion.

It was alleged he passed on what he overheard to French agents.

The Swiss chief public prosecutors office at Berne last night admitted that a "top secret inquiry is being conducted."
