

Miners Open Diamond Set Today

Ready or not, University of Texas at El Paso peels the cover off of the 1970 baseball season at Dudley Field Friday and Saturday with a four-game series.

Coach Andy Cohen, still not ready to pick his regular lineup, will send his Miners out against Odessa Friday and Ranger Saturday. The Miners will be involved in two games both afternoons.

The infusion of new blood, Cohen hopes, should give the Miners a big boost as they tune up for their second season in the Western Athletic Conference.

Cohen is hopeful that such transfers as Bob Prokopowicz, an outfielder who joined the Miners after University of Albuquerque dropped athletics last spring, Brian Harper, from Odessa, and Gary Molberg, also of Odessa, can give the Miners a boost.

Jim Greggerson, a 6-foot-6 frosh from Ysleta, has shown signs of being capable of giving the Miners some badly needed pitching strength.

Cohen's pitching staff, no doubt, will be headed by southpaw Marc Bombard, a hard dealing junior from El Paso, and Harry Milner, a right hander from Kilgore.

Returning for his senior season will be John Miller, who can patrol the outfield or work at first base, as well as Rick Butler, a good hitting outfielder and Juan Sandoval, a good fielding second baseman with three years of experience.
