Classifications On Draft Changed

WASHINGTON (UPI)—The Selective Service System today created several new draft classifications and abolished some old ones, giving 18-year-olds 60 days, instead of five, to register for the draft; and told every man over the age of 35 he can now throw away his old draft card.

Those were some of the changes in a long list of regulations issued by the Selective Service to conform with the new draft law signed into law by President Nixon Sept. 25.

The new rules will become effective in the more than 4,000 local draft boards in early December.

HERE ARE SOME OF THE major changes:

—A new classification, 2-D, will be established for divinity students who are making satisfactory progress in their studies. Those who do not enter the ministry will be liable to the draft until age 35.

—A new classification, 4-G, will be established for men surviving sons and for young men in families where a father, brother or a sister was killed in the line of duty after Dec. 31, 1961, or is captured or missing in action.

—CLASSIFICATION 1-Y, which covered people medically, mentally or morally

unqualified to serve except in a national emergency, will be abolished. Those subject to examination will be classified 1-A until their status is reviewed, those with disqualifications will be classified 4-F—the category previously reserved for those with major disabilities.

—Classification 5-A, for those over age 35 who had never been deferred and for those over the age of 35 who had been, will be abolished. The Selective Service will no longer have active files for registrants beyond the age of 35, except for doctors, allied medical personnel and certain other unspecified registrants.

—The old rule which said every registrant born after Aug. 28, 1924, had to carry his draft card and classification in his pocket regardless of his age is abolished. Now registrants will be required to carry their cards only until the end of their liability to draft—age 35 for those who were never deferred, age 35 for all others.

—A new classification, 1-F, will be established. This will be for men turning 18 during 1972 and each year thereafter. All registrants will go into this administrative holding category—instead of immediately to 1-A, as in the past—and will remain there until 1973 when their lottery is held. After the lottery, the selective service director will

announce a ceiling above which registrants will not be called, and everyone with numbers above that ceiling will remain 1-F during the following year, 1973, when those below the ceiling will be subject to draft. Those below the ceiling will be removed from the 1-F category or whatever classification applies.

—The 1-F category will also be assigned to men who turned 18 this year and who, after their lottery is held next year, draw numbers above the ceiling. A 1-F cutoff number also will be set for those young men turning 18 next year and subject to draft then.

—Young men will be allowed to register for the draft any time from 30 days before their 18th birthday until 30 days thereafter. The draft board will be set for those young men turning 18 next year and subject to draft then.

—VETERANS LEAVING the service, who had not registered with the draft before they went in, will not have to register when they leave, if they have discharged their military obligation.

—Persons down to the age of 18 may be appointed to local draft boards. The old minimum age was 20. Terms may not be longer than 30 years, instead of the old 25.

—A registrant's family or employer will no longer be able to request a deferment for him. Only the registrant will be able to apply for postponements or deferments.

Castner Range Land Use Study Committee Formed

Members of a 36-man ad hoc committee, which will recommend usage of the Castner Range, were named by Rep. Richard White today.

They will meet with Rep. White at 10 a.m. Saturday in the Conference Room of the Federal Courthouse.

REP. WHITE will outline the problems connected with the Castner Range, which is surplus land, and then ask the group to elect their own chairman and determine a plan of action.

A controversy arose following announcement that the Army declared the Castner Range, about 8,235 acres of land in northeast El Paso, as

surplus and proposed to the House and Senate that it be made available through disposal by the General Services Administration.

The law sets certain restrictions on disposal of the land.

MEMBERS OF the ad hoc committee were released by Rep. White's office to the Herald-Post today by telephone.

They are as follows: Bob Galbraith, manager, KILP-TV; Bob Gorty, manager, KILP-TV; Ed Sargent, manager, KROD-TV; Jim Phillips, manager, KKEY-TV; Fred Harvey, president, KSCV; and publisher, Sun Shopper; I. T. Cohen, manager, of KEEZ radio; Larry

Daniels, president, KINT radio.

Also Dorcas D. Roderick, president of Newspaper Printing Corp.; Robert W. Lee, editor of El Paso Herald-Post; William L. Latham, editor El Paso Times; R. D. Hall, president, El Paso Assn. of Builders; Mrs. Hollis Brown, president, Women's Department, Chamber of Commerce; and publisher of the Northeast El Paso News; Ted Karam, president El Paso Chapter of Sierra Club; Mr. and Mrs. J. W. White, president of Audubon Society of El Paso; Rose Swall, president El Paso Hospital; and publisher, El Pasoan.

Car Owners' Language Turns E.P. Air Blue

There may not have been a blue northern Sunday as predicted, but the air was probably pretty blue with language from car owners who waited in line Saturday to have anti-freeze installed.

The hard freeze predicted for Sunday and steadily defended by the El Paso Weather Service after the middle of Saturday afternoon, took a sudden turn for the north and El Pasoans experienced one of those beautiful, busy fall days on Sunday which couldn't have been nicer if it had been ordered.

MANY SERVICE stations were swamped with regular and extra customers.

NEW Promises Help for Aged

WASHINGTON (UPI)—Elliot L. Richardson, secretary of Health, Education and Welfare (HEW), said today Americans are "refraining our aged into institutions, many of which provide sub-standard care."

"The President has said it cannot—and it will not—continue to be the fate of any older Americans to spend the last days, months and years of their lives in institutional facilities, in decrepit, depressing and death-dealing facilities that differ only in architecture from the fire lines on which primitive civilizations once pushed their elderly to their deaths," Richardson said.

In a speech prepared for a nursing home conference sponsored by the American Association of Retired Persons and the National Retired Teachers Association, Richardson promised a crash effort to make sure nursing homes met medical standards.

WASHINGTON (UPI)—A Senate subcommittee which uncovered widespread irregularities in the operation of military service clubs and post exchange facilities today recommended sweeping reforms to prevent similar future scandals.

Members of the Investigations Subcommittee, which conducted two years of investigations and public hearings centering on the activities of former sergeant major of the Army William O. Woodbridge, a cast of his Army pals and two former army generals, introduced bills which would

CREATE a new position of Defense Department inspector general to investigate "malfeasance and wrongdoing" in all the services. While

WASHINGTON (UPI)—Sen. John L. McClellan, D-Conn., said today the government is considering legal action against 100 persons allegedly involved in massive kickbacks and other corruption within Army post exchanges and

United men's clubs in Europe and Southeast Asia.

Each service now has an inspector general or equivalent official, the Defense Department does not.

—Candidates all so-called military nonappropriated fund activities including the service clubs, messes, the Army and Air Force Exchange Service and military welfare funds under a single Defense Department governing body to control and audit those activities and report to the defense secretary. Nonappropriated fund activities for auditing purposes.

PROHIBIT any federal on- or off-duty military or civilian, from personally obtaining confidential or contraband weapons except when fully documented. The law would be for an accredited museum or government training center.

The subcommittee heard testimony from former Maj. Carl C. Turner, while serving as Army provost marshal, on the large quantities of weapons confiscated by the police departments in Chicago and Kansas City under the pretense they would be used for Army training. Turner then kept some of the guns for his personal collection and also

McGovern told a news conference at the United Nations following a meeting with UN Secretary General U. Thant that his legislation would strike out the most objectionable features of the administration's aid program—the roughly 50 cent earmarked for military assistance.

The South Dakota said his bill to be introduced later in the day would include a \$28 million credit authorization for military arms to Israel but "specifically bars" military aid to such "dictatorships" as Greece and Pakistan.

Laird to Assess Vietnam Pullout

WASHINGTON (UPI)—Defense Secretary Melvin R. Laird left for Saigon today to make a fresh assessment for President Nixon on how fast the United States can proceed with withdrawal of troops from South Vietnam.

Laird will return next Monday and Nixon is expected to announce about a week later the next phase of the troop pullout program. There have been

reports that he may announce this week that most of 196,000 GIs still in Vietnam would be pulled out.

AS HE BOARDED his jet at Shepherd AFB, Texas, on the first leg of his trip, Laird again related "Vietnamization"—turning over the war to the South Vietnamese—to the foreign aid program.

Laird said military aid to Saigon had made possible withdrawal of 40,000 American troops from Asia, including 32,000 from Vietnam, since Nixon took office. He had cautioned yesterday that the process might be slowed if the foreign aid bill, voted down by the Senate Friday, was not revived.

This is Laird's fourth trip to Vietnam since he became defense chief.

HE RECALLED to reporters that his first trip was in March, 1969, two months after taking office, and at that time there were 520,200 Americans in Vietnam.

The steady withdrawal, "has been made possible through the application of military assistance and foreign military sales," he said, adding that he was confident Congress would revive the aid program.

Sun Bowl Teams Narrowed Down

Speculation on the matchup of the Sun Bowl football game in El Paso on Dec. 31 has been centering around University of Colorado of the Big Eight Conference and the University of Tennessee of the Southeastern Conference.

The Sun Bowl Selection Committee, holding its weekly meeting today, did not confirm that Colorado and Tennessee appeared like the best current match.

BUT TALK around the city was that there was a better prospect of matching these teams in El Paso than any others.

Colorado and Tennessee each has a 6-2 record. Oklahoma and Nebraska have beaten Colorado. Tennessee has lost to Alabama and Auburn.

The Sun Bowl committee reduced its "look list" to 14 teams, cutting off Oklahoma, Nebraska, Alabama, Duke, Penn State and Notre Dame.

The committee may have a little realistic in figuring the Sun Bowl would have to choose to get Oklahoma, Nebraska, Alabama, Penn State and Notre Dame.

The 14 teams left on the Sun Bowl list and their records: Arkansas 6-2, Texas 6-2, Houston 7-0, Georgia 8-2, Louisiana State 5-2, Mississippi 6-1, Iowa State 5-2, Miami of Florida 6-2, Air Force 5-2 and Florida State 6-2.

EDGEMONT, MASS.—The Dixie Bridge, from which Mary Jo Knepper plunged to her death in a car driven by Sen. Edward M. Kennedy, is undergoing repairs because of damage caused by that accident and by supervising the repairs. The repairs have backed up the bridge with pedestrians and took chunks home that they tried from the flooring. (UPI Photo)

Senators Defeat Tax Deferment Plan

WASHINGTON (UPI)—The Senate Finance Committee today rejected by a tie vote, an administration plan to allow U. S. corporations to delay payment of some taxes as a reward for expanding exports.

The plan lost on a vote of 5-5. A majority is needed for approval. All nine committee Democrats except Sen. Clinton P. Anderson of New Mexico

voiced no and all seven Republicans voted yes.

Under the plan, firms would be able to defer for years the payment of taxes on profits resulting from exports.

The purpose was to encourage corporations to export more goods rather than to relocate plants in low-wage countries overseas.

It has been estimated that the savings in corporate taxes from deferring the payments would be about \$60 million annually under the measure.

Still pending in the Senate

Committee was a modified version of the same concept which was adopted by the House. It would save businesses an estimated 200 million in taxes after a few years' operation.

Although taxes on profits from increased foreign sales would be paid when the profits were distributed to taxpayers, many tax experts

in the closed committee session pointed out the tax deferral feature of the plan has the effect of making the tax a mere

Seeking to force Japan and other countries to drop taxes

which keep American cars out of their market, the committee voted Monday to give President Nixon power to retain executive taxes on foreign-made autos.

NIXON DID NOT seek that authority and his spokesmen fought against giving it to him in the closed committee session. They termed it "overkill," pointing to the burden of the 10 per cent surtax which has been levied on Japanese cars.
