Price

Is Price right? New Bradshaw QB

WEEKENDERS.Quote of note from Bill Fitch, new coach of the Boston Celtics, about his former team, the Cleveland Cavaliers: "We won one game out of 16 and then went into a slump."...Add nicknames: The Briar Jumpers of Somerset, Ky., High School, the Calhoun, Tenn., High School Minks, the Mighty Mikes of Carmichael, Pa., High School and the Raleigh-Egypt High School Pharoahs of Memphis, Tenn....Joe Manago, the former groundskeeper and caretaker of Dudley Field, has been hospitalized for eye surgery....Do you know that golfers on the PGA tour now cannot change from one brand to another in golf balls after they start play in one round?...They can make four changes in a 72-hole tournament but they've got to use the same brand in each round....And Lee Trevino said the greens were so fast in the Memorial Golf Tournament at Muirfield, O., that if you marked your ball the dime you marked it with must have spikes....It was all in fun, of course, but Tom Landry may have made some enemies at College Station....At a roast for Kyle Rote, the soccer star, Landry said, "There's no question about Kyle being the best American soccer player we have, but that's like saying someone is the best Aggie brain surgeon....Dour faced comedian

Pat Paulsen said to Rote: "It's pretty obvious you've been hit on the head with a soccer ball too often....You could have played pro football and made \$200,000 a year but you decided to play soccer for \$15,000 a year."...And there was the track meet held without the steeple chase because the director wanted to save water....And is the Price right in the Missouri Valley?

DAVID PRICE is the new commissioner of the MVC, succeeding Mickey Holmes who went to the Sugar Bowl as its director....Little David faces a Giant in trying to keep the MVC afloat....But he contends he's not going to preside over the conference's funeral....From a football standpoint, the Valley is like the old gray mare....She ain't what she used to be....But maybe basketball will keep the conference going....Price is known very well here because of his connection with the Western Athletic Conference at one time....Andy Gilbert, the Amarillo manager, lives in Latrobe, Pa., and has a speaking acquaintance with another resident of that city, Arnold Palmer....Gilbert goes way back in baseball, as does our own Andy here--Andy Cohen....Gilbert recalls that in a minor league game in which he was the playing manager, he was on first

base and Cohen was playing second base for the other team...."I ran into second base with my spikes flung....I hit Andy hard enough to bowl him over. I expected him to get up and go after me. Instead, he dusted himself off and said, 'that's the way to play this game....I wish more of my players played it that way.'"...Moose Stubing was challenged by one of the bleacher fans the other night....Moose invited him to step on the field....The invitation was declined....Optimistic statement of Chuck Tanner of the Pittsburgh Pirates on last Aug. 12 when his team was 11 1/2 games out of first place: "This may not be the end....It may be the beginning."...The Pirates made a gallant stretch run but couldn't quite catch the Phillies....Comparing race driver with baseball player by Dave Condon of The Chicago Tribune: "The auto driver hits walls instead of balls."

TERRY BRADSHAW brought his older brother, Gary, to El Paso....Like Terry, he's a husky guy....But he didn't play much football....The hopes of the Bradshaw family for a worthy successor to Terry lies in brother Craig who is quarterbacking Utah State....Craig is 21, weighs 225 and is 6-5....Terry's attorney, Gerald Bur-

nett, of Shreveport, is with the Bradshaws....I guess most big stars need lawyers to look after their legal affairs....Terry likes El Paso so well that he talked about moving here...."Now that Trevino has moved to Dallas, I might just move to El Paso as a replacement," he quipped....He related that his father in Louisiana was scared of the Steelers' game with Houston...."I kept telling him we were going to take them easy," he said....The Steelers did....The news from Las Vegas should be disconcerting to Western Athletic Conference schools....Frank Sinatra and some of his fellow entertainers at Vegas appeared in a benefit and raised more than a million dollars to help the University of Nevada at Las Vegas athletic fund....I don't think WAC schools can compete with Sinatra as far as raising money for athletics is concerned....The Vegas school is due to enter the WAC when the school clears up its NCAA difficulties....Hear about the football player who heard that Purdue was an engineering school and went there to study that course? When the coach wouldn't let him drive a train, he left....Oh, yes, it's bad....This gasoline crunch....But all coaches want....Is players by the bunch.
