

Haygood wants to be 'complete'

By JIM THOMAS

U.T. El Paso junior outfielder Danny Haygood wants to become a more complete baseball player.

He wants to play professional baseball. Or as he says, "definitely, that's the No. 1 thing I want to do."

He possesses the God-given talent to play the sport well. He can make difficult catches look easy. And he has what every scout is looking for -- the ability to reach base and the speed to get home.

In order to make himself a more complete player, Hay-

HAYGOOD

good decided to become a switch hitter. Normally, he throws right but bats left.

"During fall workouts I decided to try hitting the ball right-handed. I took several cuts in practice this spring and decided I liked hitting right-handed."

HAYGOOD HAS been hitting consistently since changing. He's one of the best hitters on the team. And he has an eagle eye as he gets on base often and he evened walked six straight times recently against Lubbock Christian College on afternoon. Last year he led the team in stolen bases and will probably duplicate that feat this season.

"That's what I want to be is just consistent. So far I have been going up and down. I want to stop that and just

be able to play good ball," he added.

THE 5-9, 160-POUND physical education major from Kermit, was recruited by former UTEP head coach Andy Cohen and by Miner head football coach Bill Michael for his services at the same time.

"Coach Michael actually wanted me to play football. I was a split end and free safety in high school. They were going to offer me half scholarship for football and half for baseball. I just didn't want to play football in college. Then Andy called me and

said a full baseball scholarship opened up so I took it," Haygood said.

Haygood and the rest of the Miners were to meet Moorhead State in a double header today (starting a 1:30 p.m.) at Dudley Field. The Miners are 8-7 and riding a seven-game winning streak. UTEP so far has breezed to three easy 10-run rule wins over the Dragons.

The 19-year-old outfielder gets plenty of support. His mother and father, Dorothy and Pat, drive from Kermit (about three hours from El Paso) for every home game in order to watch their son.
