HUNTIN' and FISHIN'
with DICK TROSPER
All of my reports indicate Balmores Lake to be the hot spot this week. Black bass, which seems to be the favorite almost everywhere, are being taken in abundance. Buddy Hamlin, Monahan, caught his limit with the largest weighing 6 1/2 pounds. On Poco Perch, while his fishing partner J. W. Stord, who was fishing with minnows and lures, caught a stronger, full of the big game Channel cat and crappie are also biting well.

Roger McCown, the editor of "New Mexico Wildlife" called me the other day and invited me to go to Elephant Butte for some trout fishing that he wanted to do for an article which will appear next in "New Mexico Wildlife". We were met at Elephant Butte Lodge by Bill Eusey and Bob Patterson who also work for the New Mexico Game and Fish Department. Their advice proved invaluable as we caught a nice string of channel cat.

After two days of fishing Elephant Butte, Roger and I left Bob and Bill goodbye and headed towards Lake Roberts. We left T or C on the road to Hillsboro and on into Black River, good spinner and Lake Roberts. The drive is beautiful, one could spend the whole day just looking around over the country side. We finally pulled into the general store run by Mr. and Mrs. Hess who are just about the most hospitable hosts one could ask for under any fishing report it was a pleasure to meet them in person. We left the following morning for Wall or building lake as I call it. We stopped there for a little and plugged for bullfrogs and probably would have caught one had it not for the rain that started just after we left. In the afternoon and headed back to T or C a little later, but with a good feeling and a little regret. We both knew that we would be back as soon as we could.

Fishing reports: Alpine, Ariz., Luna, fair; Nelson, fair; Big Lake, fair; Crescent, fair; Black River, good; spinner and worms, fireball, cheese balls and small minnows are being used in the area with good results. Catalina Lake is still poor. Lake Roberts fair at night with worms, lures and spinners. Lower Gila is good on worms and spinners with worms and cutbait on troutlines.

Joselito Huerta To Perform Today In Plaza Monumental Bullfights

Plaza Monumental's 1970 bullfight season enters its last five weeks of regularly-scheduled corridas at 6 p.m. Sunday with the distinguished Mexican matador, Joselito Huerta, who has held the top post among Mexican and Spanish bullfighters for nearly 15 years. Huerta will face the youthful enthusiasm and competence of young matadors Eloy Cavazos and California's Robert Ryan in the Sunday spectacle, facing a select of six Chacho Cabrera bulls.

Huerta, who held Mexican "alicados" in suspense for nearly 15 years, is the most respected and courageous matador active in the bullfight world today.

Cavazos, now a regular winner of nine ears and two tails during the 1969 season at Plaza Monumental, has been waging a grueling man-a-mano (hand to hand) war with two matadors against six bulls with the "maestro" for the past few months.

Ryan, performing two weeks ago at Plaza Monumental, stole the show from teenage favorite Curro Rivera and new matador, Ponce de Leon. Ryan was awarded the only ear of the event after a colorful and daring fight. The Coliseum is only the fourth American to become elevated to full matador in bullfighting history.

The three-man challenge six bulls from the same ranch which held the famous "Nigromante" (Necromancer) with matador and his brother, who was a brave and noble character. He was a brave and noble character.

Randy Hundley, Chicago Cub catcher, once caught the El Paso Sun (1969).
