It Could Be Long, Hard Miner Year

FIRST HUNT—Keith Deputy, 15, son of Kent Deputy had beginner's luck during the past deer season. Keith outshot his dad and brought down a 12 pt. buck while Kent had to be satisfied with a mere 8 points. They were hunting about 14 miles south of Sierra Blanca.

The last special deer hunt is over and the deadline for special velvet and barbary sheep hunts has passed. Almost all of the season's stories have been stretched into long-winded yarns and woven into legends that would make Dan Boone blush and all the mighty warriors are sitting around the tipi, waiting for the weather to warm up enough to fishing.

The annual supply of tackle catalogs have arrived and the selection is bigger and harder to make than ever. The Shaker Company lists a line of reels, over 175 different line items, rods, balanced outfits, and all the accessories.

THE UNCLE Josh Bait Co. aims to have become the series term for pork and in addition to offering a full line of Uncle Josh, also extends to a "Famous Anglers Series" of booklets.

The new Zebco book not only plays a full line of tackle and also gives expert tips the fishing in various parts of country, gives instructions how to use a rod and reel, how to tie different knots and about various lures and how to use them.

The Garcia Fishing Annual is a combination magazine and catalog that has something for everyone. It is available at bookstands and bookstores.

IM McCLELLAN of the New Mexico Game and Fish Department at Las Cruces reports fishing at Caballo and Elephant Butte is reasonably good for fish and crappie but very few bluegills are out fishing.

The river below the Butte and Del Rio Drain is good for it and those fishing are using mon eggs or corn and getting good catches.

New Mexico turkeys are getting a helping handout from hunters and sportsmen who are trying out feed for the big birds hoping of a good survival for nesting season.

HAVE HAD about 18,200 calls in parents in the past eight weeks asking what type of gun and I suggest they get for their boys.

HAT is a "loaded" question.

Coach Andy Cohen's University of Texas at El Paso baseball squad opens full squad practices Monday for a 37 game schedule which was termed the toughest in the school's history.

"We have the toughest schedule," Coach Cohen said, "of any we have had in the six years the Miners have been playing baseball. We play both Arizona State — the NCAA national champions last year — and Arizona which are always among the tops in the country."

THE PITCHERS and catchers have been working for the last two days at Hugo Meyer Field where the Miners will play their 20 home games. Many of the players are back from last year. They include all but two of the starting squad. They and a few transfer students are expected to help in the pitching and catching department.

Among the catchers are Ronnie Hix, a transfer from Odessa Junior College and Reynaldo Salinas, a freshman. Coach Cohen expects to take a good look at. Returning is Richard Meyer, a sophomore letterman.

HEADING THE list of returning pitchers are Lynn Hunt, a junior two-year letterman, former Jefferson Silver Foxes star Jesse Lujan, junior Kennedy McAnally and Don Wilson, a New Jersey right-hander who Coach Cohen thinks is a pretty good prospect.

Address High chucker Tony Eaton and El Paso High right-hander Ernest Barrueta — who suffered a sore arm and was out before the season started — are among the top new players along with Bill Brant, a University of Missouri transfer sophomore from El Paso who is expected to help in the relief department. Another pitcher expected to turn out when baseball is over is 6-foot, 8-inch sophomore Howard MacDonald.

RETURNING TO the team are last year starters Bob Aguirre, short stop; Danny Blanco, third base; John Miller, second base; Ron Rush, utility infielder; John Murphy and Charlie West, outfielders.
