Protestant Missionaries Rap Ecumenical Movement

WHEATON, Ill., April 16.—A gathering of Protestant missionaries to today criticized the ecumenical movement, warning against a "worldwide religious monopoly."

Nearly 300 delegates, one of the largest missionary gatherings ever held, met in the first progress to the church's worldwide mission. Yesterday the congress drafted a "Wheaton declaration," certain to pass overwhelmingly today at the close of the meeting.

"Church unity of itself is welcome," the declaration said. "The new internationalism is a fragmented series of sects, teaching that all mankind is one family... Christ is being betrayed by those calling themselves his friends," the delegates said.

THE DECLARATION did not mention the ecumenical movement or the world council of churches by name but it was clear that the delegates had these groups in mind.

SUN KING PITCHERS—Jim Hubbrook, left, will pitch the Sun Kings home opener at Dudley Field tomorrow against the Albuquerque Dodgers. At right is Paul Munger, chief relief pitcher of the Kings.

Methodist and Catholic Wed In First Mixed Ceremony

For the first time in El Paso religious history a Protestant minister and a Catholic priest participated in a marriage ceremony today at the new mixed marriage provisions of the Roman Catholic Church.

Minister Mary Jo Pettison of St. Paul's Parish and Richard Michael Montgomery of St. Vincent's Church officiated.

The ceremony was held at the home of the bride, Mrs. J. B. Buntz, who is a member of the St. Vincent's Church.

Mexico Visit Points Way To More Trips

LBJ Wants to Tour
Other Nations
In Latin America

U.S. Press International, April 16.—The overwhelming success of President Johnson's 24-hour visit to Mexico City points the way to more extensive travel by the Chief Executive in Latin America.

Although no dates or plans have been set, Johnson is on record as wanting to journey to other hemispheric nations—a major feature of his Mexican visit Thursday and Friday was his call for a hemispheric summit meeting.

One influential aide said that the Mexican visit, for Johnson in Mexico City by perhaps two million or more people Thursday night "displaced the myth" that he could not arouse an enthusiastic reception as a result of the U.S. intervention he ordered last year in the Dominican Republic.

WHILE JOHNSON, stayed by the Mexican outpouring, is likely to do some more traveling south of the border later this year, his aide considers it unlikely that he will visit other nations in Europe as well. This is because, he said, the president is a stammering down of the controversy over the status of North Atlantic Alliance, resulting from P.A.C.'s withdrawal from NATO.

Millions Will See El Paso Movie On Physical Education

The light plane swooped in over the top of Mount Franklin, and fired away at the City of El Paso. Its firing apparatus was a camera. The moving pictures it got make the opening scene of the new 14-minute movie to be previewed in Washington next week by Sen. Mike Mansfield, consultant to the president on physical fitness.

Viet Cong Mortar Fire War's Biggest

U.S. Casualties
Reported Light;
Koreans Arrive

UNITED PRESS INTERNATIONAL
SAIGON, April 16.—Counter-attacking U.S. Marines fought and won a bitter battle Saturday, routing Viet Cong troops who charged after firing what one veteran Leatherneck called "the most intensive mortar barrage I've ever seen."

The ground victory 23 miles north of Saigon coincided with announcement of a spectacular new American success in the air war against north Viet Nam.

U.S. spokesmen said Air Force fighters destroyed a record number of trucks at the Gia Pa, which had been destroyed by B-52s in a massive raid Tuesday.

ON THE South China sea beaches near Qui Nhon, the Americans and their allies received fresh reinforcements as more than 300 Korean combat troops stormed ashore from landings.

Their arrival raised the total of Korean troops in South Viet Nam to about 25,000 men and brought to full strength the famed ROK Marine Corps.

A Viet Cong ambush, in full battle gear and field packs, attacked a company of U.S. Marines in the big battle that ended triumphantly for the Americans.

The communists opened their assault by dropping more than 20 mortar shells and one mortar shell into the American position, and following up with fire from 72 mm recoilless rifles.

THE VIET CONG attacked the instant the barrage ended. But Marine artillery opened up on the Viet Cong.

Lady Bird Leads Tour Of Farming Center

CHAPINCO, Mexico, April 16.—Buncher Lady Bird Johnson today led a 20-car motorcade to the Mexican National Agriculture Show on behalf of the Alliance for Progress, amid exceptionally heavy security precautions.

The U.S. First Lady toured the national center for agricultural education in this small community about 15 miles from Mexico City.

Two helicopters whirled overhead, leading the scenic tour from the Mexican capital to the center, where Mrs. Johnson was given a warm welcome.

The motorcade is carrying on a number of international agricultural projects, some directly associated with the Alliance for Progress program.

ALONG THE entire route there were posters on every tree and every light and telephone post, each a picture of the U.S. and below it, printed, "Claudia Johnson, U.S. Ambassador."

Both Mexican and American military and civilian security measures appeared to be exceptionally heavy on the trip. One

U.S. Buys Back Bombs From Germany

WASHINGTON, April 16.—The United States paid a West German firm \$21 million for bombs needed for Viet Nam which the Germans had bought from the U.S. after World War II.

Despite the fact that the Germans sold back the bombs for less than 12 times the purchase price, the Air Force claimed there was no loss to the U.S. in the transaction.
