

Texas A&M-E.P.

W. J. (RED) MITCHUM, speaker at the Sun Bowl awards dinner at the Coronado Country Club Thursday night, referred to University of Texas at El Paso as Texas A&M-El Paso . . . He's not too far wrong this week . . . Even Andy Cohen, an Alabama grad, who gave the benediction at the Chamber of Commerce luncheon for the Sun Bowl teams yesterday closed his prayer with "go get 'em, Aggies." . . . The Southeastern Conference won't get as much bowl gravy as the conference has gotten in the past . . . Georgia is the only SEC member playing in a major bowl . . . Officials who worked the Astro-Bluebonnet bowl game last night were from the Western Athletic Conference . . . The record for the most individual yardage made in a Sun Bowl game is held by Walter Packer of Mississippi State . . . He ran for 183 yards in the 1974 game against North Carolina . . . Will it be broken tomorrow? . . . Billy Stevens of UTEP holds the best pass completion mark, 21, while Dean Carlson of Iowa State holds the record for most yardage in the air, 230 . . . If these marks aren't beaten tomorrow, Florida and Texas A&M may endanger them as well as setting some records in other categories . . . Here's wishing that if everything isn't all heaven . . . For all good sportsmen in seventy seven . . . that it won't be like that other place . . . And that they'll win and lose with grace.
