

Name Andy Cohen New Manager At Indianapolis

INDIANAPOLIS (INS) — The Indianapolis Indians today named Andy Cohen, 52, former major and minor league infielder with the New York Giants and Minneapolis Millers, as manager of the Indianapolis Indians to succeed Kerby Farrell, who is sweating out a chance to manage the Cleveland Indians.

Farrell, contacted at Henderson, Tenn., said:

"I've gone along this far and I'm going to have to hang on. Don't worry about me. I'll have a job next year. I would have liked to return to Indianapolis but I know that Bush (Owne Bush), Indians president can't wait on me any longer."

The surprising announcement of Cohen was made in agreement with the Chicago White Sox, with whom the Indians now have a working agreement.

Cohen finished fifth at New Orleans last season and sixth the year before. But in seven previous years, at Eau Claire in the Class D Northern League, and at Denver, then in the Class A Western League, he finished first three times, second three times and third once. Cohen served three years in the Army during World War II and then returned to El Paso, Tex., as a part owner of that club. He is leaving Saturday for the Canal Zone to manage a team in the Pan American winter league.

Cohen is personable and a good after dinner speaker. He was a good fielder and clutch hitter in his playing days. This year, he worked as a scout for the Pirates.
