

Sluggers host Abilene

by Don McWilliams

Andy Cohen, Miner Basketball coach, is bubbling with confidence that his University baseball team will sweep both games against Abilene Chirstian College March 5 and 6 at the Ysleta cutoff.

This will be the first time the Miners have ever played Abilene Christian and with this being the opening of Miners regular season the fans can be assured of two exceptional contests.

"I really don't know that much about them", Cohen stated. "but this is the hardest working team I have ever coached wich makes me confident that they can do the job."

The Miners played four exhibitions with Ranger Junior College and wound up with a disappointing slate of 2-2. However, according to Cohen Texas-El Paso has been drilling hard in practice on their hitting and pitching wich appears be jelling alongside their strong defensive infield.

Ailing Jeff Hogan is expected to get the starting nod at pitcher Hogan has been suffering with a bad backache but shoul be in fine condition to open the contest. If he is in no condition to start Jerry Walker will replace him.

Keith Dwinell will start at first base. Art Bravo at second, Glenn Villarreal at third, David Patt at shortstop and Terry Goodro will be starting catcher.
