Diamondmen begin season

By Don McWilliams

The Miner baseball team will depend on good pitching and a steady defense today when they open their season against Ranger Junior-College at 1 p.m. on the Miner diamond.

Head Skipper Andy Cohen has already indicated that the morale of his pitchers will prove vital throughout the first few games of the season. He also added that this year's team has worked harder than any other team he has ever had.

Probable starting pitcher is Dave Jannusch. Jannusch started off hot last year but suffered a mild injury which hampered his progress last season. Jannusch's main problem has been control because he has an extremely good fastball and change up pitch. Other pitchers figuring to start this season are Jerry Walker, Mike Rima, Brice Damworth, Ken Milburger, Wes Zots and Sam Cox.

One problem the Miners have had and hope to improve on is the infield. The UTEP infield will be led by returning lettermen Keith Dwinell (first base), Art Bravo (second base), Rusty Kenneth (shortstop), Jim Bradford (third base) and utility man Orlando Cordova.

With inexperience plaguing the diamondmen in the past, Dwinell and Bravo are the leaders for the team and Cohen expects plenty of work from them.

Happy Anderson is the probable starter at catcher with Jim Di Angelo expected to see plenty of action as well.

The outfield will be led by sure slugger Terry Dillingham in right field, Bob Alsip in center and Brad George in left field.

The Miners will play all non-conference home games on the Miner diamond, while the Western Athletic Conference home games will be played at Dudley Field.
