

Despite Loss—

UTEP Has Good Look With Foes

By MIKE PEMBERTON

Andy Cohen hoped to build a fire under his U.T. El Paso Miner baseball team today when the Miners met Colorado State College in the second game of their two game series. The Miners lost the opener 4-2 at Dudley Field.

Despite an apparent let-down after the Southern Illinois games, the Miners were compared "favorably" with New Mexico University, who defeated the Bears of Colorado early in the week.

COACH THURMAN Wright of the Bears said, "I would compare the two teams very favorably with Miners' pitching staff the stronger of the two. New Mexico has a hitting ball club for averages while your team (Miners) has the potential long ball hitters. One thing they have got that the Miners don't is speed."

The Miners got on the scoreboard first, but the Bears came back in the fourth inning to knot the score and added two more in the fifth. It looked as though the Miners might come back in the eighth when Danny Blanco got on with a walk. Ron Hix then popped out and this brought Rick Butler to bat.

BUTLER was robbed of a double, even possibly a triple when the line drive he hit to deep center field was caught on a diving catch. Centerfielder Rus Hyder was the man making the robbery.

This may have been the icer for the Bears. Wright said, "I don't know if it was the turning point in the game, but it sure went a long way towards winning it."

THE MINERS outhit Colorado State College eight to four but these were scattered throughout the game. The key to the Bears scoring was a walk in each inning combined with two hits.

The big man at the bat for the Bears was Wayne Cowell who collected two of the four hits and two RBI's. For the Miners it was Hix, Butler and John Murphey who all got two hits.

It was the first game the Miners haven't committed an error. Colorado College also played errorless ball.
