

Host Arizona—

Miner 9 Needs A Hot Stick

Andy Cohen, baseball coach at Texas-El Paso, hopes his hitters can regain their batting touch this weekend when the Miners host Arizona in a three-game Western Athletic Conference series.

More important, perhaps, is

that Cohen is hopeful that John Miller and Mike Ward, a pair of regulars, are fully recovered after being hit by pitches at Arizona State last weekend.

Brown Hatfield Burns Breadmen In Master Bowl

The Brown Hatfield team rolled a 1014 game and, in the process, dumped Sunbeam Bread 2-1 in the Red Rooster Master Bowling League at Red Rooster Lanes, in the final night of bowling.

Randy Jackson bowled a 245-624, David Alvarez 215-211 and Johnny Gutierrez 216 for the winners. Alvarez ended the season with the most improved average. He started with 179 and upped it 188.

Red Campbell had 236, Jim Clark 205-221, Dave McFadden 208-202 and Louie Maldonado 201 for the bakers. Maldonado had the highest individual series score for the league with 724 pins.

OTHER RESULTS: Roger St. Cyr and Brad Davidson each tossed 226 and Roy Lown had an even 200 as Roy Lawn's Bowling Supply defeated Fortune Life Ins. 2-1 with Chuy Castaneda rolling 225-604, Fred Trudeau 220, Bill Aziz 212 and Bob Leatherman 211 for the insurance men. Aziz had the highest average for the league with 195. Fortune Life scored a double honor having both the highest team game and highest series with totals of 1101 and 3186. Frank Silcock 203-213-603, Bobby Lopez 208-201, Dennis Spittler 223, and Roy Huber 205 got a late season start and blanked Wilhelm's Team 3-0. Larry Edwards had a 210 for Wilhelm's. Horace Gaillard tossed a 204 as Center Lanes downed Red Rooster

THE MINERS were handcuffed rather neatly at Tempe last weekend, getting only 17 hits and Cohen watched in horror as his team's batting average tumbled to .265.

While most of the Miners were watching their averages take a nose dive shortstop Ron Rush and second baseman John Sandoval padded their averages.

Rush took a .286 average into the ASU series and came out of it with a .302 mark. He had one double and one triple against the front-running Sun Devils who swept the three-game set.

SANDOVAL CARRIED a .254 mark into Tempe but when he returned his average had jumped to .281 and played according to Cohen, as well as any member of his team.

The normally good hitting Miller was unable to do anything with the Sun Devil throwing. His .302 average skidded to .286, an all-time low since he has been with the Miners.

Ward, before being struck by a pitch, had been a victim of a light stick, and his average dropped from .340 to .330. Third baseman Danny Blanco, too, watched his .360 average skid to .337 after the ASU series was complete.
