Tribe's Cutie Hurlers Soft Touch for Bears

By Special Correspondent

DENVER — Manager Andy Cohen of the Indianapolis Indians is convinced it doesn't pay to try to tame Denver's sluggers with the "cutie" type pitcher.

Cohen's Indians, beaten three times in four skirmishes with the Bears this season, have been raked for eight homers by the Grizzlies, most of them against the softer throwers.

"They've shown me they hit best against the mediocre speed pitchers and the fellows with soft stuff like (Tony) Ponce," Andy conceded after last night's 10-5 series-squaring loss to Denver.

"I had good luck with a hard-throwing type like Bill DuFour. I don't think they go for his kind of pitching so much," added Andy.

Andy was disappointed in the performance of Southpaw Don Rudolph, who took some hard bumps before a three-run homer by Marv Throneberry routed him in the third inning. Throneberry isn't noted for his ability to shell lefthanders, but two of his last three round-trippers have been against southpaws.

Rudolph gave up five hits, four of them for extra bases, before departing with two out in the third.

Cohen took consolation in the strong comeback of the Indians after they had fallen behind, 7-0, in the first five innings.

The Tribe, smothered by John Gebhard's excellent southpawing for five frames, teed off in the sixth.

Ron Jackson's homer, the second of six straight hits by the Indians, highlighted a four-run rally. There were two aboard with only one out after Jose Valdivielso whacked the sixth Indianapolis safety in succession.

When Denver came in with Jack McMahan, a left-handed reliever, Cohen decided this was the time to make the lone move available to him with his depleted roster.

He brought in John Romano to bat for Don Prohovich in the hope that John "might pop one for me." A homer here would have tied the score.

Unfortunately, Romano grounded into one of Denver's four double-plays and the Indians' best chance went glimmering.

Romano eventually did "pop one" when he homered with the bases empty in the ninth. But it was too late to do any good then.

Cohen wondered after the game if maybe he would have been better off to wait until a later spot to employ Romano as a pinch-hitter. Before he could develop that thought any further, Coach Johnny Hutchings came in with a quick vindication.

"I thought you made your move at exactly the right time," Hutch said. "Romano just got his home run at the wrong time."

With Sam Mele at home nursing a bad back and Charley Williams recovering from a throat infection, Cohen had only one pinch-hitter available and had to gamble at the one opportunity.
