Cohen Fired as Tribe Manager

Dismissal of Andy Cohen as manager of the Indianapolis Indians was announced today by Tribe President Ownie Bush, who said that Cohen "didn't turn out to be my style of manager."

Bush added that he had no one in mind as a successor and that it would be "quite a while before we select the 1958 manager." Cohen succeeded Kerby Farrell last winter, coming here after two years at New Orleans.

From Chicago, where he attended a White Sox organization meeting with Bush, Cohen said that he felt that he "didn't do bad the way things shaped up," meaning frequent injuries to key players and the sale of Ted Beard to the White Sox.

Immediate speculation on a suc-

cessor to Cohen centered around George Kell, veteran major league infielder now with Baltimore and reportedly involved in a pending trade with the Chisox, and Farrell, who is expected to be ousted as Cleveland's manager.
