

Rotary Chief Visits Border

Approximately 560 Rotarians from Texas and Mexico were present in the Juarez Country Club to hear president of Rotary International, William E. Walk Jr., of Ontario, Calif., speak during his visit to the border Thursday.

Though scheduled to arrive in El Paso Thursday morning, Walk's flight was detained in Chicago because of heavy fog. He did not arrive in El Paso until after 7 p.m. and was immediately taken to Juarez for a banquet in the Country Club.

On hand to greet Walk at the airport was Alderman Clinton Wolf, representing Mayor Peter deWetter.

Special guests at the banquet included Alderman Wolf, El Paso County Judge Udell Moore and Juarez Mayor Bernardo Norzagaray. Rotary leaders attending the banquet included governor of Rotary District 552, Walter Wade, and Mexican Dist. Gov. Carlos Aldana, District 411.

Walk, a prominent attorney in California, was appointed to the judiciary in 1969 by Gov. Ronald Reagan. He has been a Rotarian since 1948 and has served Rotary International as first vice president, chairman of the executive committee of the Board of Directors, director, parliamentarian, district governor, Rotary Foundation trustee and committee chairman and member.

He has received the Brotherhood Award of the National Conference of Christian and Jews as the Protestant representative and the Chamber of Commerce Award.

Walk will leave El Paso Friday morning for Houston.

Tells How All Can Aid Beauty Plan

William I. Latham, editor of The El Paso Times, was guest speaker Thursday night at the Beautify El Paso Association meeting held in El Paso Public Library auditorium.

Latham's topic, "Let's Dress Up El Paso," stressed four means of beautifying the City: 1) individually be careful of the litter you dispose of each day, 2) the city as a whole should organize a paint up, fix up, clean up campaign, 3) Beautify El Paso Association could sponsor a landscaping contest and 4) the youngsters of the city should be enlisted in the clean up activities.

HE pointed out that just a portion of the nation's annual litter is 8 million disposed used cars and 48 billion cans. Fifty per cent of the United States' air pollution is caused from automobiles and 90 per cent of the cities' pollution is caused from cars.

Each year the American government spends more than \$4 billion on disposing this waste material.

The average American disposes 5.5 pounds of litter per day. By 1980 he will be disposing eight pounds of litter.

The group discussed tentative plans to organize a landscaping contest in El Paso.

Miss Peggy Mangan, Sun duchess representative for Beautify El Paso Association in the recent Sun Carnival, was present to extend her gratitude to the group for their sponsorship.

Andy Cohen is club president.
