Beautiful Homes Map Made Available To EP Visitors

Beautiful El Paso Association has drawn up a map, "Tourist Trails," identifying architecturally outstanding homes in the city. The maps, available at the Tourist Bureau, El Paso Chamber of Commerce, were created to assist visitors in traveling around the city, pointing out for them places of interest.

The association members express the belief that tourist trade is of great importance to any city, and, with that in

mind, they created the maps with the assistance of Mrs. Malcolm Welch, Frank Mangano and Eddie Koons.

Maps of both the East and West sections of the city will be available and several addresses have been included, which will give the visitor an idea of where to find some of the city's most beautiful homes.

Five of the homes designated in "Tourist Trails" are the home of Mr. and Mrs. J. A. James, 3012 Silver, built in 1928 by M. H. Welch; the home

of Mr. and Mrs. Paul Harvey, 3100 Gold, built in 1929 by Welch; the home of Dr. and Mrs. William J. Reynolds, Jr., 3038 Federal, built in 1930 by Welch; the home of Mr. and Mrs. Arthur Gale, 811 Rim, built in 1939 by Ponsford Brothers, and the home of Dr. and Mrs. Frank Schuster, 939 Rim, built in 1939 by Welch.

Property owners along these trails are asked to cooperate in making the trails fit for tourists attractions.

The host city should make every effort to see that tour-

ist-motorists enjoy their visit and get the most out of their stay in El Paso, members of the association said.

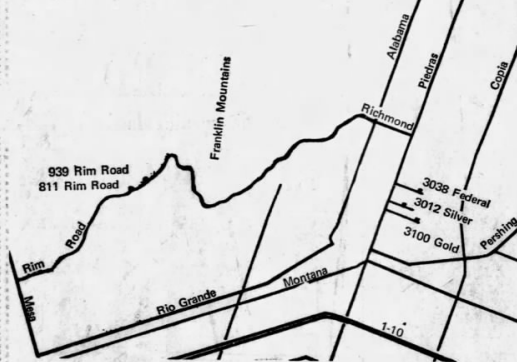

Aim of the Beautify El Paso Association is to promote

beautification and increase awareness of local conditions, so that the city can become more attractive to tourists, as well as become a cleaner, healthier and safer place to

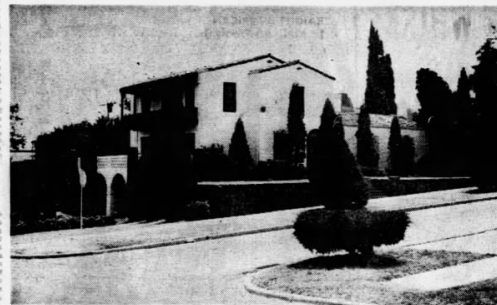

live. The organization works in cooperation with Keep American Beautiful Inc., in New York City. Andy Cohen is president of the El Paso Association.
