

Andy Cohen, who was supposed to be John McGraw's answer to the need for a colorful Jewish ball player more than a quarter of a century ago, never made the grade for McGraw in a big way, but he has come a long way with the Yankees since. News of his appointment as manager of the Yanks' top farm club at Denver was hailed throughout the country, because he has managed clubs in big and little minors since 1930, and he has been popular wherever he went.

Mike Gaven, New York Journal-American sports writer, who himself went up to the "majors" from Newark, told about Denver writers interviewing Andy when it was reported he would become Ralph Houk's successor.

"My wife loves it here. It would be just fine," said Andy about the possibility of piloting in Denver. Then, in an aside to Gaven, he admitted:

"She likes it everywhere."

And, as Mike says, it's lucky she does, because Andy has been just about everywhere as a manager.
