

At Plaza Monumental—

Smouldering Rivalry May Explode Sunday

The bitter, long-smouldering rivalry between Mexico's top bullfight box office attraction, Curro Rivera and Leonardo Manzano is expected to reach its peak during Sunday's bullfight spectacle at Plaza Monumental.

Six San Antonio de Triana fighting bulls, estimated to weigh over 1000 pounds each, will oppose Curro, Manzano and dynamic young Mario Sevilla in action which begins at 6 p.m.

THE HEATED rivalry between Curro and Manzano began last September at Plaza Monumental's competition for the Golden Sword Trophy, Mexican bullfighting's most coveted honor.

Although Curro had won the only ear during the hotly-contested competition, Manzano was awarded the Golden Sword by the president of the Mexican Matador's Union despite the fact that both young matadors appeared to receive an equal ovation during the voting at the close of the corrida.

WHILE MANZANO was overjoyed by the selection, Curro fumed, claiming the important trophy was rightfully his for having been awarded the only ear of the fight.

Tickets and reservations are available in El Paso at Central Ticket Agency, 120 E. Franklin and at the Kentucky Club in Juarez.
